## Cover Feature

### CUSTOM CONTROLLERS

18

28

06

## 17 LENS

- 18 **Custom controllers**  
Enhance your mind-machine connection
- 28 **How I Made: TOPS**  
A faithful robotic hound
- 34 **Interview: Michael Omotosho**  
Open-source hardware will save the world!
- 42 **Objet 3d'art**  
The thinking ten-year-old's favourite Cretaceous dinosaur
- 44 **Letters**  
Soldering glass, Poseidon, and the look of leather

## Tutorial

### Gigabutton

62

Touchscreens are rubbish – you want a giant 3D-printed button!

## Interview

### Michael Omotosho

34

Distributed citizen science with a real purpose, the open-source hardware way

47

## FORGE

- 48 **SoM KiCad**  
Make an RP2040 game controller
- 54 **Tutorial Kinect carbonizer**  
A cheap scanner, a 3D printer, and you're Jabba the Hutt
- 60 **Tutorial Crontab**  
Harness time to do your bidding
- 62 **Tutorial Gigabutton**  
Build one button to rule them all
- 66 **Tutorial KiCad part deux**  
Control high-power LEDs with a Pico and your own PCB
- 72 **Tutorial ROS: the Robot Operating System**  
The brains behind our mechanical overlords
- 78 **Tutorial 3D printing**  
Calibrate for size, overhangs, temperature, and more

## CONTENTS

84

## Review

### Tiny Tapeout

94

The final frontier of open-source hardware: making your own custom silicon chip

83

## FIELD TEST

- 84 **Best of Breed**  
The best new toys for 2024
- 90 **Review xTool Screen Printer**  
Laser-cut designs into inky cotton
- 92 **Review Flipper Zero**  
Test the [lack of] security of wireless devices
- 94 **Review Tiny Tapeout**  
Can you really design your own silicon?
- 96 **Crowdfunding Spark Analyzer and BLSTRsander**  
Monitor power usage while blasting sand

Some of the tools and techniques shown in HackSpace Magazine are dangerous unless used with skill, experience and appropriate personal protection equipment. While we attempt to guide the reader, ultimately you are responsible for your own safety and understanding the limits of yourself and your equipment. HackSpace Magazine is intended for an adult audience and some projects may be dangerous for children. Raspberry Pi Ltd does not accept responsibility for any injuries, damage to equipment, or costs incurred from projects, tutorials or suggestions in HackSpace Magazine. Laws and regulations covering many of the topics in HackSpace Magazine are different between countries, and are always subject to change. You are responsible for understanding the requirements in your jurisdiction and ensuring that you comply with them. Some manufacturers place limits on the use of their hardware which some projects or suggestions in HackSpace Magazine may go beyond. It is your responsibility to understand the manufacturer's limits.
