## 06 SPARK

- 06 **Top Projects**  
What have you been up to this month?
- 18 **Objet 3d'art**  
Objects that spark joy. Cheers, Marie Kondo!
- 20 **Upcycling**  
Turning junk into cool stuff to have around the house
- 22 **Meet the Maker**  
Alfred Chow, Maker of Things
- 28 **Columns**  
The patent system is broken – be careful out there
- 30 **Letters**  
Give us your requests, rants, and opinions
- 31 **Crowdfunding**  
Moore's Law strikes the world of FPGAs

## Cover Feature

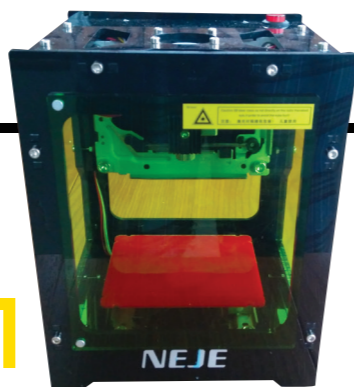

# COLIN FURZE

We go bravely into the bunker of invention and come out only slightly singed

34

122

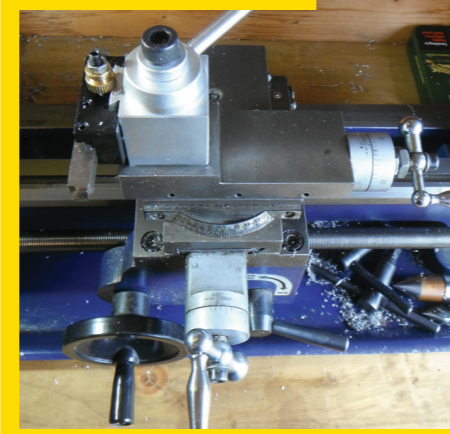

## 33 LENS

- 34 **Colin Furze**  
Inside the shed of Britain's most explosive maker
- 48 **How I Made: Camper van**  
Turn a white van into a portable hobbit hole
- 54 **hackAIR**  
Citizen science turns its eye to monitoring air quality
- 58 **Interview: Caz Ryves**  
Teaching science with pedal power
- 66 **Improviser's Toolbox Candles**  
What to do with your surplus waxy fire sticks

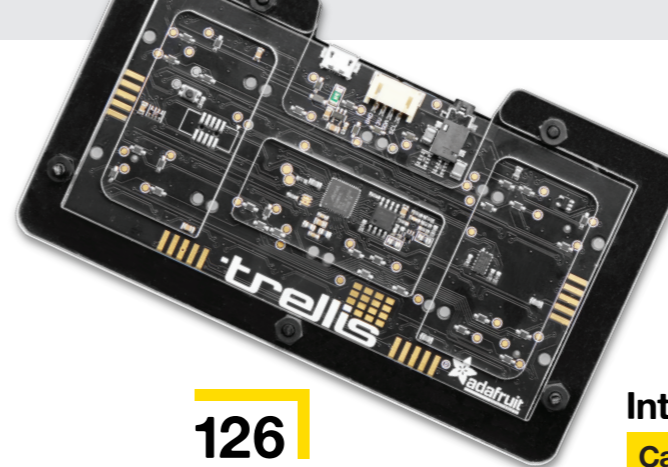

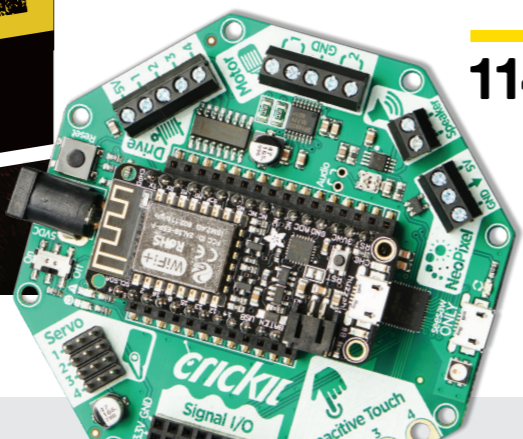

## Tutorial

### School of making: Get started with lathes

76 Mmm – we can almost smell the hot metal from here

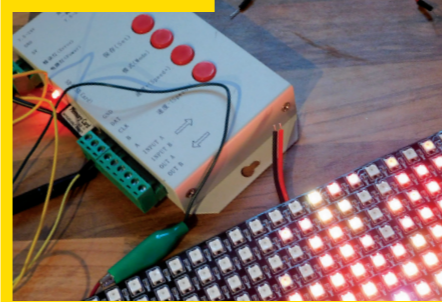

114

126

## Direct from Shenzhen

### LED controller

110 Make pixels dance and shimmer before your very eyes

## Interview

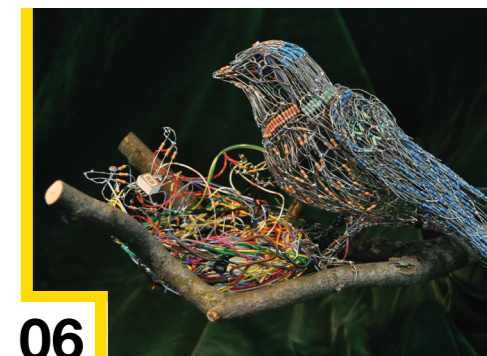

### Caz Ryves

58 What happens to all good bicycles when they die?

120

## 71 FORGE

- 72 **SoM Electronics**  
Combine capacitors and resistors to make filters
- 76 **SoM Get started with lathes**  
Shape metal to the form you desire
- 82 **Tutorial Fermented food**  
Preserve vegetables with friendly bacteria
- 86 **Tutorial CircuitPython**  
Take your first steps in Python for microcontrollers
- 88 **Tutorial Digital embroidery**  
Apply computerised designs to fabric
- 92 **Tutorial Casting LEDs**  
Create unique interfaces with embedded NeoPixels
- 96 **Tutorial Light painting**  
Make a light show with a wave of your hand
- 102 **Tutorial Optical sorting**  
Build a machine to sort your Lego blocks by colour

## 109 FIELD TEST

- 110 **Direct from Shenzhen LED controller**  
Create and control an affordable light show
- 114 **Best of Breed**  
Building something with wheels? You'll need a motor controller
- 120 **Can I Hack It?**  
Repurpose a weather station to your evil ends
- 122 **Review Neje DK-BL laser engraver**  
Burn designs onto acrylic, card, and wood with an affordable laser
- 124 **Review Mayku FormBox**  
Desktop fabrication takes the next step: a vacuum former
- 126 **Review Adafruit NeoTrellis M4 Express**  
The most fun we've had with flashing lights since Pac-Man
- 128 **Review Scratch 3.0**  
Drag-and-drop programming language now with added HTML 5
- 129 **Book Review I, Robot**  
The ur-documentation for modern robotics

Some of the tools and techniques shown in HackSpace Magazine are dangerous unless used with skill, experience and appropriate personal protection equipment.
